Ingo bank aka Worldyman aka Superman RL.

GREED-FREE LIFEWORK (sold nothing, all driven by love, no privileges ever, no help ever, all during survival: no family, poverty, 2x homeless, chronic illness):

+ Artist name evolution: The Isolation Artist, Iso, Iso & The Worldys, Worldyman, Worldyman is Superman RL

+ 2013 - selftought music production, sound designer by poverty, countless of soundtracks (all free use).

+ 2015 wrote scientific papers such as "The Third dimension" (universe), "sharpening language" & "Information mistake prevention", "metabolism chainreaction Theory" and more... all this science he labeled "unimportant" in the first place, moved on to continue important: preserving innocence, manifesting soul.

+ 2015-2019 (despite reading writing handycap / never read books) he wrote 10 books (as distraction and use of time during survival fight for health) & also recorded some hours long audio-movies with various voices acted and background noise animated.

+ 2016-2017 painted Worldy-theme paintings (real canvas)

+ 2017 invented an action cardgame specifically for the purpose to break social fears on a date, and tested it with that real person, who lost all fear and agreed "Best game ever" (the card game was never seen by anyone else though remained always in the back of his mind and might appear as a GIF version in the future!).

+2017 became Stand Up Comedian and blew the minds of the judges at germans Supertalent pre-casting (nb1 greatest moment of his life) who sent him to the recall where he was sabotaged for respectfully saying no to being used/abused and was sabotaged and then cut out of the show - he was 1 step away from escaping torture life in rock bottom society.

+ 2019-2020 built VIMOSA (virtual museum of survival art, anti-discrimination & Science), a website that would fade out due to poverty.

+ 2020-2021 produced 80 episodes (incl, 80 selfproduced soundtracks) as his 1st big step to sport-comeback, a dance-parkour Art series "Saturdance" (considerably the greatest artwork in modern history) that features physical Worldys at its best!

+ During homelessness 2022 he filmed almost every day and produced a unique, artistic & insightful docu series "HomeLESS".

+ Also during homelesssness 2022 he filmed worlds first homeless full street-skate-pART that must be considered the hardest skateboarding ever (during life & death).

+2023-2026 Worldyman filmed and edited 25 more of the greatest creative masterpiece skateboarding video-pARTs and received highest honor rating from american critic Gifted Hater who said about SUPER ALONE 3 "The best of the best", "This art makes humanity worthy not to be evaporated by aliens".

+ 2015-2026 Worldyman build various youtube channels filled with highest effort craft - he never created content but he brought birth to art & visions no matter the painS. thats why he was the isolation artist anyway, because this was the only way to get all his art right. Yet with integration it would have still been the dream life with countless of honors, rewards and fans.

+ last but evolution peak: Worldyman unlocked shared social wealth.

+ devalued, worthless he remains in isolation and poverty.
